

## IXSEA: offshore and onshore at OCEAN BUSINESS 2009

IXSEA will be holding training sessions onshore and live demo sessions offshore, along with a technical paper at the Offshore Survey Conference, at Ocean Business 2009 in Southampton from 31 March to 2 April.

### OFFSHORE

---

IXSEA's survey vessel [FPV Morven] will depart for a two-hour sailing at 10am, 12am and 2pm daily.

IXSEA will demonstrate ELICS side scan sonars, ECHOES sub-bottom profilers, positioning with GAPS USBL as well as HYDRINS and PHINS inertial navigation systems with the new DELPH V2.7 real-time acquisition and interpretation software.

### ONSHORE

---

- **Offshore Survey Conference**

Advances in Geophysical Sensor Data Acquisition - 12.50pm–1.15pm, 1 April  
Presented by Jim Titcomb, Global Technical Manager, IXSEA Offshore.

- **Classroom Sessions**

Introduction to OCTANS and basic theory of operation - 1pm-2pm, 31 March  
Join IXSEA Aberdeen's Technical Manager, Andy Wallis, for training on the OCTANS fibre optic gyrocompass and motion sensor.

Accumulated experiences using GAPS subsea positioning system - 10.30am-11.30am, 1 April  
Hubert Pelletier, Business Development Manager - Acoustic Products, outlines the key benefits of the GAPS pre-calibrated USBL.

PHINS - Inertial aided subsea positioning in offshore applications - 3pm-4pm, 2 April  
Marc Girault, Marine Inertial Product Line Manager, underlines the key aspects of PHINS DVL subsea inertial navigation system for the offshore industry.
