

NEW APPOINTEMENT

CUSTOMER SUPPORT DEPARTEMENT

iXBlue enhances its customer support in the UK and Ireland

iXBlue has expanded its customer support function with the appointment of Scott Gray based in Aberdeen, UK. In his role as customer support engineer, Gray will assist customers in the UK and Ireland across all the company's product areas. He will provide technical support for customer trials and product demonstrations, and offer training at the Aberdeen facility and customers' locations.

Gray has a bachelor of engineering degree from the Robert Gordon University in Aberdeen and extensive experience in electronic and survey engineering, both offshore and onshore. Before joining iXBlue, Gray worked for mooring technology supplier InterMoor (previously Trident Offshore) as a senior survey engineer and later an electronics engineer in the company's training and development department.

David Cunningham, iXBlue's UK general manager, said, "I am delighted to welcome Scott to the iXBlue team to support our increasing customer base in the UK and Ireland. Based in Aberdeen at the heart of the offshore community will enable him to respond particularly rapidly to a very fast-moving and demanding part of our customer base."

For more information or to find out about iXBlue training courses, contact Scott Gray, tel: +44 1224 355160.

About iXBlue

The iXBlue group is built around companies, well known for their continuous innovation.
